Cesca Vicent

Abat Domènech

Priorat, Spain

Wine Notes

Wine with personality, elegance, power and structure. Cabernet Sauvignon is the predominant variety, which was planted by Cesca in the 80s. Over the years the Cabernet has acclimatized to the terroir of Priorat and developed its own style. This is a full body, concentrated wine with a mineral backbone. The wine shows intense aromas of baked fruits, cassis, red plum along with hints of violet, spice and leather.

Cesca Vicent

Cesca Vicent is a unique property located in the heart of Priorat, in the town of Gratallops. It is owned and ran by Francesca Vicent (better known as Cesca), a fifth generation producer. Her family has been farming grapes in this area since the 16th century, she has a little of 'street cred' in the area! After inheriting this plot of land, she began researching her soil diversity. Once she was equipped with a detailed soil map of her 13.2 hectares illustrating Licorella and its 10 other different soils types, Cesca became determined to make wines that show the incredible diversity of her vineyard. She has been practicing organic since 1999 and became certified in 2011, striving to make a wine as natural as possible and dedicated to the production of terroir driven wines.

Farming:

Certified organic

Harvest Method:

Hand harvest

Varietal:

40% Cabernet Sauvignon,
30% Garnacha,
15% Carinyena, 15% Syrah

Age of Vineyard:

Planted in 1996
